### EDUCATION

#### Bachelor of Software Engineering Telkom University Purwokerto

2024-2028

- Chairperson (Ketua Pelaksana) for the SEVENT student event, leading event management and coordination
- Active Member & Staff of Research and Creativity Division – Software Engineering Student Association (HMSE) for 2 periods (2025 - 2026). Responsible for researching and sharing software engineering competitions to encourage student participation.

#### Software Engineering

#### State Vocational High School 5 Surakarta

2021-2024

- Developed web projects using HTML, CSS, PHP, JavaScript
- Specialized in Express.js and Next.js
- Completed UGM Web Developer Training by Sinarmas
  - Built e-learning website using Next.js, Tailwind CSS, DaisyUI, and Axios
- Final school project: Library app using Flutter, Express.js, and Prisma

### SKILLS

- Core Frontend: React.js, Next.js, Vite, Tailwind CSS, Framer Motion, HTML5, CSS3, JavaScript
- UI Implementation: Figma (Design-to-Code Slicing), Pixel-Perfect Translation, Responsive Design
- Backend & Database (Secondary): Node.js, NestJS, FastAPI, Laravel, MySQL
- Tools & Deployment: Git, GitHub, Visual Studio Code, Vercel, REST API Integration, Swagger

### PROFILE

A detail-oriented Frontend Engineer specializing in the modern React ecosystem (Next.js, Vite) and scalable client-side architecture. Highly skilled in translating complex UI/UX designs into accessible, pixel-perfect web applications while ensuring robust state management and optimized frontend performance. Equipped with strong full-stack capabilities for seamless REST API integration, seeking remote opportunities to solve complex logic challenges alongside an innovative engineering team.

### PROFESSIONAL EXPERIENCE & PROJECTS

Samsung Solve for Tomorrow (SFT) 2026 | Frontend Developer Mei 2026

- Engineered the core user interface for an AI-based social innovation prototype.
- Architected seamless integration between the frontend state and backend AI services to ensure low-latency data processing and smooth user experience.

Digital Product Founder (GrowUI) | Frontend Developer & Creator Feb 2026 - Apr 2026

- Designed, developed, and launched a premium digital marketplace for high-quality portfolio templates utilizing Tailwind CSS and Framer Motion.
- Architected frontend optimization and SEO structure, ensuring responsive layout consistency across devices.
- Integrated digital checkout configurations for global platforms (Lemon Squeezy/Gumroad) to automate digital product delivery.

Zetech (HMSE Startup Initiative) | Frontend Developer Dec 2025 - Present

- Led the frontend development and performance optimization for an internal startup's company profile website.
- Managed seamless Vercel deployment architectures and handled technical domain migration to zetech.id.

Batik Batari | Freelance Frontend Developer Mar 2026

- Implemented a highly responsive company profile portfolio, translating high-fidelity design mockups into a dedicated frontend layout.
- Developed and optimized the frontend interface specifically for the Solo Run Festival project integrated within the company's main portfolio.

EduPath | Frontend Engineer Mar 2026

- Engineered the frontend architecture for a personalized web-based learning platform.
- Applied User-Centered Design (UCD) principles to create intuitive user journeys and scalable logic implementations

Sri Rejeki Holiday | Frontend Developer Jan 2026

- Developed and deployed a responsive vehicle rental web application.
- Architected smooth booking workflows and optimized user interfaces to improve client digital presence and customer acquisition.

Aplikasi Siber Teknologi | Frontend Developer Intern Jul 2023 - Sept 2023

- Built responsive UI components using React.js and integrated REST APIs with frontend interfaces to ensure smooth data flow.
- Participated in strict code review and debugging processes to maintain engineering standards and code quality.

Macbim Academy | WordPress Developer Intern Jul 2023

- Customized WordPress themes and plugins, translating layout designs into functional websites and significantly improving client site performance.

### COMPETITIONS & CERTIFICATIONS

Belajar Dasar Pemrograman Web | Dicoding Okt 2024 - Okt 2027

Certificate of Competence Mei 2024 - Mei 2027

"Kickstart Your Front End Developer Career with React JS" Webinar Jun 2023

Participant | Central Java Provincial Web Technologies Competition Mei 2023

Participant | Certification of Student Competency Competition in Web Technology Mar 2023
